DEAR COLLEAGUES,

On behalf of the Officers, Council, and ABA Antitrust Law Section Leadership, I am delighted to invite you to the ABA Antitrust Law Spring Meeting. We are fortunate to celebrate 71 years of Antitrust enhanced by over 15 years of consumer protection and data privacy content. Building on the past, we have planned for the future with an exciting slate of programming lined up for the world's premier event for antitrust, consumer protection, and data privacy professionals which has become known as ABA Antitrust Week in Washington, DC.

The in-person programming will be planned with appropriate safety precautions, outstanding substantive sessions, fireside chats, networking reception, and opportunities to connect with colleagues from around the world that the more than 3,500 people who attend every year have come to expect.

Whether you are an experienced practitioner or just beginning (or contemplating) a career in antitrust, consumer protection, or data privacy, the Spring Meeting has been the indispensable venue for substantive programming and networking for over seventy years. This is an exciting time to be involved in antitrust, consumer protection, and data privacy for both younger lawyers and economists and the most experienced practitioners.

Some of my favorite sessions throughout the years have been hearing directly from the agencies with the **Agency Updates from the Department of Justice, the States, and the FTC Bureau Directors, Views from the Bench, and Enforcers Roundtable**.

If your practice is outside of the DC area, like mine, you may also find some of the following non-CLE sessions of interest:

- **Tuesday Events for Young Professionals** — Our traditional “Pathways to Leadership” program will offer practical advice from Section leaders on ways to enhance your career, grow professionally, and use Section membership to develop your career. This program is followed by a young professionals happy hour.
- **Career Conversations** — This is where young professionals can engage in an information exchange on perspective of careers in academia, corporate counsel, federal & state enforcement, and the plaintiffs’ bar. This is ideal for young professionals looking at different career paths.
- **Diversity Dialogues** — We felt enriched after attending the inaugural 2022 dialogues, so we are bringing these important discussions back. Led by our Section leaders, we find this enhancement beyond the legal practice is a conversation worth continuing.
- **Fireside Chats** — Join international enforcers for informal discussions pertaining to their jurisdictions. The schedule for this will be posted online closer to Spring.
- **Hotel Room Blocks** — The Section has negotiated discounted room rates at a variety of DC Hotels. We hope you take advantage of these special deals. Some firms opt to place all of their team at one property to enhance networking within their practice group.
- **Networking** — One of the things I most look forward to is renewing friendships and building new ones. I set a goal to meet a minimum of five new people each year. I hope you will do the same. There are very interesting people from all areas of the world and all areas of practice.
- **No Sponsorship** — The Section does not accept sponsorship monies. Official ABA events organized by the ABA Antitrust Law Section are listed in this brochure or the updated agenda online at ambar.org/atSpring
- **Session Panelists** — We are extremely thankful for the hundreds of professionals who volunteer their expertise in preparation of their presentations and written course materials. If you enjoy their presentations, please let them know.

Our Spring Meeting Co-Chairs Sheila Adams and Doug Tween, Vice-Chair Lisa Danzig, Program Officer Scott Martin, and our outstanding ABA Section Professional Staff have been working tirelessly to make the 71st Spring Meeting something special for each of you. We look forward to ABA Antitrust Week in DC with you.

3 ARE VERTICAL MERGERS FALLING FLAT?

M2: SALONS 9&10

Presented by the Federal Civil Enforcement, Mergers & Acquisitions, and Trial Practice Committees

Antitrust enforcement agencies across the globe seem more willing to challenge vertical mergers and pursue theories of harm beyond the familiar vertical math. Historically, the efficiencies of a vertical merger balanced with firewalls and arbitration sufficed to address potential concerns. Now, agencies are using non-traditional theories around bargaining and information sharing. What's changed?

8 THE NEW BRANDEISIANS: ROADMAP FOR THE FUTURE?

M3: SHAW|LEDROIT

Presented by the Federal Civil Enforcement, Legislation, and Unilateral Conduct Committees

We are in an age of renewed focus on Justice Brandeis' vision regarding the purpose of antitrust.
