Mexico's Energy Regulatory Commission Agreement to Comply with Decree Amending 13th Transitory Article of the Hydrocarbons Law

[Read in Spanish/Leer en Español.](#)

On May 21, 2021, Mexico's Energy Regulatory Commission (**CRE**) published in the Federal Official Gazette (**DOF**) Agreement number A/015/2021 by which the CRE complies with the Third Transitory of the "Decree amending the Thirteenth Transitory Article of the Hydrocarbons Law published in the Federal Official Gazette on August 11, 2014," published in the DOF May 19, 2021 (**Agreement**). The most relevant content is as follows:

- On May 19, 2021, the Decree amending the Thirteenth Transitory Article of the Hydrocarbons Law, published Aug. 11, 2014, in the DOF (**Decree**) was published, to remain as:

***Thirteenth.** As a greater participation of economic agents that favor an efficient and competitive development of the markets has been achieved, the power granted to the Energy Regulatory Commission to subject to asymmetric regulation principles the first-hand sales of Hydrocarbons, Petroleum or Petrochemicals, as well as the commercialization carried out by persons controlled by Petróleos Mexicanos or its subsidiary companies, is no longer in effect.*

The sale carried out by Petróleos Mexicanos, its subsidiary production companies, or a Legal Entity, on behalf and order of the State, will be considered commercialization in terms of the provisions of this Law and its Regulations, for which reason the principles of generality and no undue discrimination provided therein must be observed.

- The Third Transitory Article of the Decree states that, within 30 calendar days from the date of entry into force of the Decree, the CRE must cancel the agreements, general administrative provisions, resolutions and guidelines related to the imposition of asymmetric regulation principles on *Petróleos Mexicanos* and its subsidiaries.
- As a consequence, and in order to comply with the Decree’s provisions, the Agreement establishes that the agreements and resolutions related to the imposition of asymmetric regulation principles on *Petróleos Mexicanos* and its subsidiaries will no longer be in effect.

The following chart includes the agreements that are no longer in effect, as a consequence of the Decree:
